**Revision of list of the plants subject to field inspection in exporting countries (Annexed table 1-2 of the Ordinance for Enforcement of the Plant Protection Act) and the details of requirements for each of the quarantine pests:**

Note: Underlined regions/countries or plants will be added. Strikethrough regions/countries or plants will be deleted.

**Common requirements**

The plants must be accompanied by a phytosanitary certificate or a certified copy of the phytosanitary certificate issued by the NPPO of an exporting country to certify that the plants have been inspected and are considered to be free from quarantine pests.
