動植物防疫檢疫局新竹分局總收文

發文日期：中華民國102年05月13日
發文字號：防檢四字第1021493055號
速別：普通件
密等及解密條件或保密期限：
附件：1021493055-al.pdf(entryseedwebcircular.pdf)

主旨：檢送美國農部動植物檢疫局(USDA/APHIS)種植用種子輸美
檢疫規定摘要如附，請 查照並轉知所屬。

說明：

- 一、依據美國在臺協會102年5月3日電子郵件辦理。
- 二、美國對種植用植物種子之規定摘要如下：
 - (一)、竹、玉米、花生、稻米、柑桔(芸香科)、可可椰子及芒果等植物種子禁止自我國輸美。
 - (二)、指定之植物(包括所有木本植物)種子須檢附輸入許可證。
 - (三)、種植用植物種子皆須檢附植物檢疫證明書。
 - (四)、符合美國規定且取得輸入許可之少量種子得免檢附植物檢疫證明書，少量種子之規定詳如本局95年5月17日防檢四字第0951490286號函(諒達)。
- 三、另非供種植用之種子，如屬美方未特別規定須檢附植物檢疫證明書之種類，輸美時得免附植物檢疫證明書，亦無須檢具輸入許可證。
- 四、美國對各種種子之詳細檢疫條件可參閱APHIS線上手冊(ht

tp://www.aphis.usda.gov/import_export/plants/manuals/online_manuals.shtml)，如係種植用種子，請查閱「Plants for Planting Manual」；非種植用種子，請查閱「Seeds Not for Planting Manual」。

ENTRY STATUS OF SEEDS FOR PLANTING - SUMMARY

Revised March 28, 2012

General information for all types of seeds

Pulp: Seeds for planting, except from Canada, must be free from pulp.

Phytosanitary Certification: Shipments of imported seed from all origins other than Canada require a phytosanitary certificate from the country of origin, except as noted in the section below for small lots of seed. For Canadian seed, a seed analysis certificate (PPQ form 925 or CFIA form 5289) may be used in lieu of a phytosanitary certificate. One certificate per lot is required.

Small lots of seed: Lots of seed may be imported without a phytosanitary certificate under the following conditions:

- (1) The importation of the seed is authorized by a written permit.
- (2) The seed is not of any prohibited genus; is not of any Federal noxious weed; does not require an additional declaration on a phytosanitary certificate; does not require treatment; is not a parasitic plant; is not genetically modified; and if a field crop or vegetable seed, it meets the requirements of the Federal Seed Act import provisions.
- (3) The seed meets the following packaging and shipping requirements:
 - (i) Each seed packet is clearly labeled with the name of the collector/shipper, the country of origin, and the scientific name at least to the genus, and preferably to the species, level;
 - (ii) There are a maximum of 50 seeds of 1 taxon (taxonomic category such as genus, species, cultivar, etc.) per packet; or a maximum weight not to exceed 10 grams of seed of 1 taxon;
 - (iii) There are a maximum of 50 seed packets per shipment;
 - (iv) The seeds are free from pesticides;
 - (v) The seeds are securely packaged in packets or envelopes and sealed to prevent spillage;
 - (vi) The shipment is free from soil, plant material other than seed, other foreign matter or debris, seeds in the fruit or seed pod, and living organisms such as parasitic plants, pathogens, insects, snails, mites; and
 - (vii) At the time of importation, the shipment is sent to either the Plant Germplasm Quarantine Center in Beltsville, MD, or an approved port of entry listed in the permit.

Obscured seed: Seed that is coated or pelleted, or embedded in a manner that obscures visibility (e.g. seed tape, seed mats) is prohibited because it cannot be inspected. Commercial seed shipments otherwise allowed entry to the United States without treatment or other restrictions will be considered for entry under the following protocol. Importers must submit a permit application (PPQ form 587), a statement from Plant Protection Organization of the country of origin stating the name of the sampling officials, a phone and fax number for the sampling official, and a letter from the sampling official stating that the sampling will be done according to International Seed Testing Association requirements. If approved, authorized samplers will draw an official seed sample from each lot before the seed is processed in the country of origin. The sealed sample will accompany the shipment of obscured seed for inspection by PPQ at the port of entry.

Additional information for field crop and vegetable seeds

Except as indicated in the small lots of seed provision above, and the special requirements section below, seeds in this category are enterable without a written permit. Seeds in this category are subject to the import provisions of the Federal Seed Act. Each lot must be accurately labeled as to kind, variety, origin, and lot designation. If the seed is treated, the declaration of labeling and each container must be further labeled. Inspectors will sample and inspect each lot of field crop and vegetable seed at the port of entry. If inspectors find noxious weeds or other pests, they may refuse admission or allow the seed to be cleaned or processed under supervision. Canadian-grown crop and vegetable seed must be accompanied by a Seed Analysis Certificate (PPQ form 925) in lieu of sampling. See special requirements section below for certain kinds of field crop and vegetable seeds.

Additional information for flower and other herbaceous plant seeds (as distinguished from seeds of trees and shrubs)

Except as indicated in the small lots of seed provision above, and in the special requirements section below, seeds in this category are enterable without a written permit. However, all seeds in this category are subject to inspection and, if findings warrant, to such treatment needed to prevent the risks of pest introduction.

Prohibitions and special requirements for herbaceous plant seeds:

Bamboo - all genera of the tribe Bambuseae- prohibited from all sources.

Broad Bean (*Vicia faba*) - see Vetch.

Corn (*Zea*) and related genera (*Coix*, *Chionachne*, *Echinochloa*, *Eleusine*, *Euchlaena*, *Miscanthus*, *Panicum*, *Pennisetum*, *Polytoca*, *Sclerachne*, *Setaria*, *Sorghum*, *Trilobachne*, *Tripsacum*.) - enterable from approved sources under written permit; prohibited from other sources. Write for details naming seeds, country of origin, and purpose of importation.

Cotton (*Gossypium*) - entry limited to certain ports and subject to fumigation. Written permit required.

- Flatpea, roughpea, sweet pea or peavine (*Lathyrus spp.*)** - enterable under written permit. Treatment required.
- Hibiscus (*Hibiscus spp.*)** - enterable under written permit. Treatment required.
- Kenaf (*Hibiscus cannabinus*)** - enterable under written permit. Treatment required.
- Lentils (*Lens spp.*)** - prohibited from South America. Enterable from other sources under written permit. Treatment required.
- Niger (*Guizotia abyssinica*)** - written permit and heat treatment required. Niger seed contains many noxious weeds and quarantine-significant seeds.
- Okra (*Abelmoschus spp.*)** - enterable under written permit. Treatment required.
- Parasitic plants** - prohibited except under plant pest permit.
- Peanut (*Arachis spp.*)** - prohibited from Burkino Faso, China, India, Indonesia, Ivory Coast, Japan, the Philippines, Senegal, Thailand, and Taiwan because of *peanut stripe virus*.
- Potato true seeds (*Solanum tuberosum*)** - prohibited from all sources except Canada, New Zealand, and certain parts of Chile.
- Rice (*Oryza spp.*)** - prohibited from all sources except from Mexico, which requires a written permit.
- Soybeans (*Glycine max*)** - must be free of leaves, stems, pods, and soil peds.
- Vetch (*Vicia spp.*)** - enterable under written permit and treatment required.
- Weeds** - Federal noxious weeds are prohibited except under plant pest permit. Refer to Federal noxious weed list at http://www.aphis.usda.gov/plant_health/plant_pest_info/weeds/index.shtml.
- Wheat - (*Triticum, and relatives; e.g. Tritordeum, Tritosecale, Aegilops*)** - prohibited entry from many sources. Write for details giving country of origin and purpose of importation.
- Wild rice (*Zizania spp.*)** - prohibited from all sources except Canada.

Additional information for woody plant seeds (trees, shrubs, palms and other plants of a woody nature)

Seeds in this category are generally enterable with a written permit, except for the following:

- Avocado (*Persea spp.*)** - prohibited from Mexico, Central America and South America.
- Barberry (*Berberis spp.*), *Mahonia*, and *Mahoberberis*** - prohibited from all sources.
- Chestnut (*Castanea spp.*)** - enterable under written permit with treatment required.
- Citrus family (Rutaceae)**, seeds of the following genera are prohibited from countries infested with HLB and CVC (seed-borne diseases of citrus): *Aeglopsis, Atalantia, Balsamocitrus, Bergera, Calodendrum, Citrofortunella, Citroncirus, Citrus, Clausena, Fortunella, Limonia, Microcitrus, Murraya, Poncirus, Severinia, Swinglea, Toddalia, and Triphasia*. Countries infested with HLB and CVC are Argentina, Bangladesh, Belize, Bhutan, Brazil, Burundi, Cambodia, Cameroon, Central African Republic, China, Costa Rica, Comoros, Cuba, Dominican Republic, Ethiopia, Eritrea, India, Indonesia, Japan, Kenya, Laos, Madagascar, Malaysia, Malawi, Mauritius, Mexico, Myanmar, Nepal, Pakistan, Paraguay, Papua New Guinea, Philippines, Réunion, Rwanda, Saint Helena, Saudi Arabia, Sri Lanka, Somalia, South Africa, Swaziland, Taiwan, Tanzania, Thailand, Timor-Leste, Vietnam, Yemen, Zimbabwe. Seeds of these genera from other countries

can only be imported into the United States if, upon arrival at the first port of entry, they are accompanied by an import permit and a phytosanitary certificate from the country of origin, with an additional declaration stating that the country where the seed for planting was produced is free of HLB and CVC.

Seed of citrus genera that are not prohibited require a written permit and, if from countries infested with citrus canker (listed in 7CFR319.37-6), a port-of-entry treatment.

- Coconut (*Cocos* spp.)** - prohibited from all sources except Jamaica and Costa Rica. Written permit required from Jamaica and Costa Rica.
- Coffee, unroasted (*Coffea* spp.)** - prohibited from all sources into Hawaii and Puerto Rico; enterable to other destinations.
- Elm (*Ulmus* spp.)** - prohibited from Europe; enterable under written permit from other sources.
- Mango (*Mangifera* spp.)** - Prohibited from all sources except Guimaras Islands (Republic of the Philippines) and North and South America (excluding Barbados, the British Virgin Islands, Dominica, French Guiana, Grenada, Guadeloupe, Martinique, St. Lucia St. Vincent and the Grenadines, and Trinidad and Tobago). Prohibition not applicable to seeds imported into Guam, Hawaii, and the Northern Mariana Islands.
- Oak (*Quercus* spp.)** - enterable under written permit. Treatment required.
- Prunus* spp.** - because of plum pox disease, *Prunus* spp. other than *Prunus avium*, *P. cerasus*, *P. canescans*, *P. mahaleb*, *P. padus*, *P. serotina*, *P. serrula*, *P. serrulata*, *P. subhirtella*, *P. laurocerasus*, *P. virginiana*, *P. effusa*, *P. sargentii*, and *P. yedoensis* from Europe must be accompanied by a phytosanitary certificate declaring the seeds were produced in a nursery free of plum pox virus in Belgium, France, Federal Republic of Germany, the Netherlands, or Great Britain, and the seeds are free from plum pox virus based on testing of parent stock. Seeds of *Prunus* spp. susceptible to plum pox disease from all countries outside of Europe, Cyprus, Japan, Syria, and Turkey, **must** be accompanied by a phytosanitary certificate declaring the seeds were grown in the country specified on the certificate and plum pox virus **does not** occur in that country.
- Rutaceae** – see previous entry for citrus.
- Weeds** - Federal noxious weeds are prohibited except under plant pest permit. A few are woody plants. Refer to the Federal noxious weed list at:
http://www.aphis.usda.gov/plant_health/plant_pest_info/weeds/index.shtml.

Endangered Species

Some seeds are regulated by the Endangered Species Act (ESA) and Convention on International Trade in Endangered Species (CITES). If the seeds you want to import are not common species, contact the Permit Unit for a list of ESA- and CITES- regulated seeds.

Genetically Engineered Seeds

For the importation, interstate movement and environmental release of genetically engineered seeds, apply using APHIS Form 2000, Application for Permit.

Permit Information

For a written permit, submit a PPO form 587 permit application.

For a plant pest permit, submit a PPO form 526.

Relevant Regulations

7 CFR 319 Foreign Plant Quarantines

7 CFR 330 Plant Pest Regulations

7 CFR 340 Introduction of Organisms and Products Altered or Produced Through Genetic Engineering (plant pests)

7 CFR 360 Noxious Weed Regulations

7 CFR 361 Importation of Seed and Screenings Under the Federal Seed Act

Notification of Non-compliance with Plant Quarantine Requirements

No. : VP604A2-0183304

Date : May 14, 2013

To : Plant Quarantine Authority of France

Reason of non-compliance :

- Imported-prohibited item.
- Contamination with the following prohibited item.
- The following injurious disease and /or pests intercepted.
- No phytosanitary certificate attached to the consignment: Wheat.
- No additional declarations were made in the phytosanitary certificate.

It is hereby requested that our plant quarantine requirements be followed for the exportation of the consignment destined to this country.

This is to notify that the entire or partial lot of the consignment was

destroyed returned to origin treated with methyl bromide
in accordance with the result of plant quarantine inspection in Taiwan, R.O.C.

Description of the Consignment :

Name and quantity of produce : Wheat, 1 CTN, 1 KGM

Exporter : Paris Gastronomy Distribution

3 Rue De LA Corderie

94586 Rungis Cedex

Place of origin : Unknown

Means of conveyance : Airplane

Port of entry : Taipei

Phytosanitary certificate No. : CE / FR 13 IF1 02140

Date and place of issue : Mar. 06, 2013, Rungis

Date of import inspection : Mar. 08, 2013
