I, undersigned official veterinarian, certify that:			
(1) African Swine Fever (ASF) and Classical Swine Fever (CSF) are notifiable diseases in Taiwan.			
(2) Taiwan has been free of Foot and Mouth Disease (FMD) with or without vaccination, ASF and CSF for three months immediately prior to the date of slaughter and the date of export.			
(3) The meat has not been derived from animals which have been swill-fed.			
(4) The meat has been derived from animals which were born and bred in Taiwan.			
(5) The meat has been derived from animals which have passed ante-mortem and post-mortem inspection carried out by veterinarians or meat inspectors under direct supervision of government veterinarians and found to be free from any signs suggestive of ASF, CSF or other infectious and contagious diseases and fit for human consumption.			
(6) The meat has been derived from animals which have been kept in a country/zone free from FMD (without vaccination), ASF and CSF, and were slaughtered, processed, packed and stored under sanitary conditions under official supervision in establishments approved by Director-General, Food Administration for export to Singapore.			
(7) The meat has not been treated with chemical preservatives or other substances injurious to health.			
(8) The meat has been inspected and found fit for human consumption and every precaution must be taken to prevent contamination prior to export.			
(9) Pathogen reduction treatments (PRTs) may only be used on raw meat that has not been salted, marinated, preserved, or undergone any other form of processing. The establishment may use only SFA-approved PRTs up to their maximum use levels. PRTs are used in addition to proper hygiene practices and not used to make contaminated meat fit for human consumption.			
(10) For chilled pork,			
a. The carcasses from which the pork was derived has been tested and found free from trichinosis.			
b. Chilled pork has been derived from gilts and castrates; and the products do not contain any harmful residues.
